## *Distribution* Centers

*Tyler Refrigeration  
Corporation is dedicated  
to the industry it serves.*

*The Tyler Parts  
Distribution Centers and  
their PARTS PLUS  
commitment to customer  
support plays an  
important part in that  
dedication.*

### **New Equipment Delivery Services**

An initial equipment purchase is only the beginning of Tyler's commitment to our customers. Any changes or additions to a completed order delivery are directed to our Niles, Michigan Parts Distribution Center. Direct reference to your original order is established and any changes or additions are handled quickly and efficiently. Our experienced sales staff is there to assist and the PARTS PLUS commitment assures you of a successful and trouble free grand opening event and support throughout the life of your equipment.

### **Dedicated Inventory**

Each Parts Distribution Center is fully stocked with the most frequently requested items and backed by each manufacturing facility's inventories. Additionally, a nationwide network of Tyler dealers stock parts that are most often called for in their individual marketing area.

### Packaging and Crating

Proper identification and parts protection are accomplished with the Tyler **PARTS PLUS** prepackage system. Individual parts are boxed or wrapped and clearly labeled.

You are assured of receiving the right part built to Tyler standards and that your case equipment repair needs are met every time. Custom wood crates have been designed to insure that glass, end assemblies, coils, etc. reach you in **PARTS PLUS** condition.

### Technical Information

Another example of the **PARTS PLUS** commitment to customer support is Tyler Refrigeration's technical publications. Tyler produces one of the most comprehensive parts and installation manuals in the

industry. Tyler customers are also updated with new product information, retrofit tips and parts reference guides several times a year.

### Central Ordering

Orders for both Niles and Waxahachie case plants and the Mechanical Systems Division are placed through the Central Ordering System located at the Distribution Center in Niles, Michigan. Our qualified sales staff is here to receive call-in orders, E-mail and fax requests. They can supply service

information, expedite orders, check part availability, along with many other services.

*The **Tyler Parts Distribution Centers** and the **PARTS PLUS** commitment to customer support are dedicated to providing you with the best service the industry has to offer.*
